Shivam Raj

Full Stack Developer

+91 7667767155 shivamraj6436@gmail.com LinkedInLink GitHubLink

Professional Summary

- Computer Science undergraduate focused on MERN stack development with hands-on project experience
- Strong understanding of React.js, Node.js, Express.js, and MongoDB for building full-stack applications
- Familiar with REST APIs, user authentication, and database integration through academic projects
- Passionate about learning new technologies and building responsive web applications

Education

Subharti University **Meerut**

Bachelor of Technology in Computer Science — CGPA: 7.0/10 *2023 – 2027*

- **High School:** Class XII (Intermediate): 72.32% — Class X (Matriculation): 65.54%

Projects

Full-Stack Myntra Clone | *React.js, Node.js, Express.js, MongoDB, Tailwind CSS* **2025**

- Built a full-stack e-commerce web application using MERN stack with product catalog and shopping features
- Developed responsive frontend using React.js and Tailwind CSS for modern user interface
- Created RESTful APIs with Node.js and Express.js for handling user, product, and order operations
- Integrated MongoDB for database management and implemented user authentication with secure login system

Portfolio Website | *React.js, HTML5, CSS3* **2024**

- Created personal portfolio website to showcase projects and technical skills
- Designed responsive layout ensuring compatibility across desktop, tablet, and mobile devices

To-Do List Application | *React.js, JavaScript* **2024**

- Developed task management app with add, edit, delete, and filter functionalities using React.js
- Implemented local storage for data persistence to save tasks across browser sessions

Weather Application | *React.js, REST API* **2024**

- Built real-time weather application using third-party API for fetching live weather data
- Implemented city search functionality with dynamic display of temperature and weather conditions

Interactive Games | *React.js, JavaScript* **2024**

- Developed multiple interactive games including Tic-Tac-Toe, Number Guessing, and Rock Paper Scissors
- Implemented game logic, win detection algorithms, and user-friendly interfaces

Skills

- **Programming Languages:** JavaScript, Python, Java, C, C++
- **Web Technologies:** React, Node.js, Express.js, MongoDB, MySQL, HTML5, CSS3, Tailwind CSS, Bootstrap
- **Development Tools:** Git, GitHub, VS Code
- **Productivity Tools:** MS Excel, MS Word, PowerPoint

Certifications

- **JavaScript (Basic and Intermediate)** – HackerRank
- **Experimental Robotics and Soft Skills** – NPTEL
- **Web Development** – FreeCodeCamp
